1. Employer's Job Tax Credit

Statutory Language:

O.C.G.A. §48-7-40. Designation of counties as less developed areas; tax credits for certain business enterprises.

(a) As used in this Code section, the term:

- (1) "Broadcasting" means the transmission or licensing of audio, video, text, or other programming content to the general public, subscribers, or to third parties via radio, television, cable, satellite, or the Internet or Internet Protocol and includes motion picture and sound recording, editing, production, postproduction, and distribution. "Broadcasting" is limited to establishments classified under the 2007 North American Industry Classification System Codes 515, broadcasting; 519, Internet publishing and broadcasting; 517, telecommunications; and 512, motion picture and sound recording industries.
 - (2) "Business enterprise" means any business or the headquarters of any such business which is engaged in manufacturing, warehousing and distribution, processing, telecommunications, broadcasting, tourism, research and development industries, and services for the elderly and persons with disabilities. Such term shall not include retail businesses.
 - (3) "Competitive project" means expansion or location of some or all of a business enterprise's operations in this state having significant regional impact where the commissioner of economic development certifies that but for some or all of the tax incentives provided in this Code section, the business enterprise would have located or expanded outside this state.
 - (4) "Existing business enterprise" means any business or the headquarters of any such business which has operated for the immediately preceding three years a facility in this state which is engaged in manufacturing, warehousing and distribution, processing, telecommunications, broadcasting, tourism, or research and development industries. Such term shall not include retail businesses.
- (b) (1) Not later than December 31 of each year, using the most current data available from the Department of Labor and the United States Department of Commerce, the commissioner of community affairs shall rank and designate as

less developed areas all 159 counties in this state using a combination of the following equally weighted factors:

- (A) Highest unemployment rate for the most recent 36 month period;
 - (B) Lowest per capita income for the most recent 36 month period; and
 - (C) Highest percentage of residents whose incomes are below the poverty level according to the most recent data available.
- (2) Counties ranked and designated as the first through seventy-first least developed counties shall be classified as tier 1, counties ranked and designated as the seventy-second through one hundred sixth least developed counties shall be classified as tier 2, counties ranked and designated as the one hundred seventh through one hundred forty-first least developed counties shall be classified as tier 3, and counties ranked and designated as the one hundred forty-second through one hundred fifty-ninth least developed counties shall be classified as tier 4.
- (c) The commissioner of community affairs shall be authorized to include in the tier 2 designation provided for in subsection (b) of this Code section any tier 3 county which, in the opinion of the commissioner of community affairs, undergoes a sudden and severe period of economic distress caused by the closing of one or more business enterprises located in such county. No designation made pursuant to this subsection shall operate to displace or remove any other county previously designated as a tier 2 county.
- (c.1) The commissioner of community affairs shall be authorized to include in the tier 1 designation provided for in subsection (b) of this Code section any tier 2 county which, in the opinion of the commissioner of community affairs, undergoes a sudden and severe period of economic distress caused by the closing of one or more business enterprises located in such county. No designation made pursuant to this subsection shall operate to displace or remove any other county previously designated as a tier 1 county.
- (d) For business enterprises which plan a significant expansion in their labor forces, the commissioner of community affairs shall prescribe redesignation procedures to ensure that the business enterprises can claim credits in future years without regard to whether or not a particular county is reclassified in a different tier.
- (e) (1) Business enterprises in counties designated by the commissioner of community affairs as tier 1 counties shall be allowed a tax credit for taxes imposed under this article equal to \$3,500.00 annually per eligible new full-time employee job for five years beginning with the first taxable year in which the new full-time employee job is created and for the four immediately succeeding taxable years; provided, however, that where the amount of such credit exceeds a business enterprise's liability for such taxes in a taxable year, the excess may be

Georgia Tax Credits: Details of the Business and Personal Credits Allowed Against Georgia's Income Tax (Appendix B)

taken as a credit against such business enterprise's quarterly or monthly payment under Code Section 48-7-103 but not to exceed in any one taxable year \$3,500.00 for each new full-time employee job when aggregated with the credit applied against taxes under this article. Each employee whose employer receives credit against such business enterprise's quarterly or monthly payment under Code Section 48-7-103 shall receive credit against his or her income tax liability under Code Section 48-7-20 for the corresponding taxable year for the full amount which would be credited against such liability prior to the application of the credit provided for in this paragraph. Credits against quarterly or monthly payments under Code Section 48-7-103 and credits against liability under Code Section 48-7-20 established by this paragraph shall not constitute income to the taxpayer. Business enterprises in counties designated by the commissioner of community affairs as tier 2 counties shall be allowed a job tax credit for taxes imposed under this article equal to \$2,500.00 annually, business enterprises in counties designated by the commissioner of community affairs as tier 3 counties shall be allowed a job tax credit for taxes imposed under this article equal to \$1,250.00 annually, and business enterprises in counties designated by the commissioner of community affairs as tier 4 counties shall be allowed a job tax credit for taxes imposed under this article equal to \$750.00 annually for each new full-time employee job for five years beginning with the first taxable year in which the new full-time employee job is created and for the four immediately succeeding taxable years. Where a business enterprise is engaged in a competitive project located in a county designated by the commissioner of community affairs as a tier 2 county and where the amount of the credit provided in this paragraph exceeds such business enterprise's liability for taxes imposed under this article in a taxable year, or where a business enterprise is engaged in a competitive project located in a county designated by the commissioner of community affairs as a tier 3 or tier 4 county and where the amount of the credit provided in this paragraph exceeds 50 percent of such business enterprise's liability for taxes imposed under this article in a taxable year, the excess may be taken as a credit against such business enterprise's quarterly or monthly payment under Code Section 48-7-103 but not to exceed in any one taxable year \$2,500.00 for each new full-time employee job when aggregated with the credit applied against taxes under this article. Each employee whose employer receives credit against such business enterprise's quarterly or monthly payment under Code Section 48-7-103 shall receive credit against his or her income tax liability under Code Section 48-7-20 for the corresponding taxable year for the full amount which would be credited against such liability prior to the application of the credit provided for in this paragraph. Credits against quarterly or monthly payments under Code Section 48-7-103 and credits against liability under Code Section 48-7-20 established by this paragraph shall not constitute income to the taxpayer. The number of new full-time jobs shall be determined by comparing the monthly average number of full-time employees subject to Georgia income tax withholding for the taxable year with the corresponding period of the prior taxable year. In tier 1 counties, those business enterprises that increase employment by five or more shall be eligible for the credit. In tier 2 counties, only those business enterprises that increase

Georgia Tax Credits: Details of the Business and Personal Credits Allowed Against Georgia's Income Tax (Appendix B)

employment by ten or more shall be eligible for the credit. In tier 3 counties, only those business enterprises that increase employment by 15 or more shall be eligible for the credit. In tier 4 counties, only those business enterprises that increase employment by 25 or more shall be eligible for the credit. The average wage of the new jobs created must be above the average wage of the county that has the lowest average wage of any county in the state to qualify as reported in the most recently available annual issue of the Georgia Employment and Wages Averages Report of the Department of Labor. To qualify for a credit under this paragraph, the employer must make health insurance coverage available to the employee filling the new full-time job; provided, however, that nothing in this paragraph shall be construed to require the employer to pay for all or any part of health insurance coverage for such an employee in order to claim the credit provided for in this paragraph if such employer does not pay for all or any part of health insurance coverage for other employees. Credit shall not be allowed during a year if the net employment increase falls below the number required in such tier. In any year in which the net employment increase falls below the number required in such tier, the taxpayer shall forfeit the right to the credit claimed for that taxable year. For the year that the net employment increase falls below the number required in such tier, a taxpayer that forfeits such right is therefore liable for all past taxes imposed by this article for that taxable year and all past payments under Code Section 48-7-103 for that taxable year that were foregone by the state as a result of the credits provided by this Code section; provided, however, that Code Section 48-2-40 shall not apply to any such forfeiture. The state revenue commissioner shall adjust the credit allowed each year for net new employment fluctuations above the minimum level of the number required in such tier.

- (2) Existing business enterprises shall be allowed an additional tax credit for taxes imposed under this article equal to \$500.00 per eligible new full-time employee job the first year in which the new full-time employee job is created. The additional credit shall be claimed in the first taxable year in which the new full-time employee job is created. The number of new full-time jobs shall be determined by comparing the monthly average number of full-time employees subject to Georgia income tax withholding for the taxable year with the corresponding period of the prior taxable year. In tier 1 counties, those existing business enterprises that increase employment by five or more shall be eligible for the credit. In tier 2 counties, only those existing business enterprises that increase employment by ten or more shall be eligible for the credit. In tier 3 counties, only those existing business enterprises that increase employment by 15 or more shall be eligible for the credit. In tier 4 counties, only those existing business enterprises that increase employment by 25 or more shall be eligible for the credit. The average wage of the new jobs created must be above the average wage of the county that has the lowest average wage of any county in the state to qualify as reported in the most recently available annual issue of the Georgia Employment and Wages Averages Report of the Department of Labor. To qualify for a credit under this paragraph, the employer must make health insurance

coverage available to the employee filling the new full-time job; provided, however, that nothing in this paragraph shall be construed to require the employer to pay for all or any part of health insurance coverage for such an employee in order to claim the credit provided for in this paragraph if such employer does not pay for all or any part of health insurance coverage for other employees. Credit shall not be allowed during a year if the net employment increase falls below the number required in such tier. Any credit generated and utilized for years prior to the year in which the net employment increase falls below the number required in such tier shall not be affected. The state revenue commissioner shall adjust the credit allowed each year for net new employment fluctuations above the minimum level of the number required in such tier. This paragraph shall apply only to new eligible full-time jobs created in taxable years beginning on or after January 1, 2006, and ending no later than taxable years beginning prior to January 1, 2011.

- (f) Tax credits for four years for the taxes imposed under this article shall be awarded for additional new full-time jobs created by business enterprises qualified under subsection (b), (c), or (c.1) of this Code section. Additional new full-time jobs shall be determined by subtracting the highest total employment of the business enterprise during years two through five, or whatever portion of years two through five which has been completed, from the total increased employment. The state revenue commissioner shall adjust the credit allowed in the event of employment fluctuations during the five years of credit.
- (g) The sale, merger, acquisition, or bankruptcy of any business enterprise shall not create new eligibility in any succeeding business entity, but any unused job tax credit may be transferred and continued by any transferee of the business enterprise. The commissioner of community affairs shall determine whether or not qualifying net increases or decreases have occurred and may require reports, promulgate regulations, and hold hearings as needed for substantiation and qualification.
- (h) (1) Except as provided in paragraph (2) of this subsection, any credit claimed under this Code section but not used in any taxable year may be carried forward for ten years from the close of the taxable year in which the qualified jobs were established, subject to forfeiture as provided in paragraph (1) of subsection (e) of this Code section, but in tiers 3 and 4 the credit established by this Code section taken in any one taxable year shall be limited to an amount not greater than 50 percent of the taxpayer's state income tax liability which is attributable to income derived from operations in this state for that taxable year. In tier 1 and 2 counties, the credit allowed under this Code section against taxes imposed under this article in any taxable year shall be limited to an amount not greater than 100 percent of the taxpayer's state income tax liability attributable to income derived from operations in this state for such taxable year.

Georgia Tax Credits: Details of the Business and Personal Credits Allowed Against Georgia's Income Tax (Appendix B)

- (2) The additional credit claimed by an existing business enterprise pursuant to the provisions of paragraph (2) of subsection (e) of this Code section must be applied against taxes imposed for the taxable year in which such credit is available and may not be carried forward to any subsequent taxable year.
- (i) Notwithstanding any provision of this Code section to the contrary, in counties recognized and designated as the first through fortieth least developed counties in the tier 1 designation, job tax credits shall be allowed as provided in this Code section, in addition to business enterprises or existing business enterprises, to any business of any nature.
- (j) Notwithstanding Code Section 48-2-35, any tax credit claimed under this Code section shall be claimed within one year of the earlier of the date the original tax return was filed or the date such return was due as prescribed in subsection (a) of Code Section 48-7-56, including any approved extensions.
- (k) The commissioner may require such reports, promulgate such regulations, and gather such relevant data necessary and advisable for the evaluation of the job tax credits established by this Code section.
- (l) Taxpayers that initially claimed the credit under this Code section for any taxable year beginning before January 1, 2009, shall be governed, for purposes of all such credits claimed as well as any credits claimed in subsequent taxable years related to such initial claim, by this Code section as it was in effect for the taxable year in which the taxpayer made such initial claim.

O.C.G.A. §48-7-40.1. Tax credits for business enterprises in less developed areas.

- (a) As used in this Code section, the term:
 - (1) "Broadcasting" means the transmission or licensing of audio, video, text, or other programming content to the general public, subscribers, or to third parties via radio, television, cable, satellite, or the Internet or Internet Protocol and includes motion picture and sound recording, editing, production, postproduction, and distribution. "Broadcasting" is limited to establishments classified under the 2007 North American Industry Classification System Codes 515, broadcasting; 519, Internet publishing and broadcasting; 517, telecommunications; and 512, motion picture and sound recording industries.

Georgia Tax Credits: Details of the Business and Personal Credits Allowed Against Georgia's Income Tax (Appendix B)

- (2) "Business enterprise" means any business or the headquarters of any such business which is engaged in manufacturing, warehousing and distribution, processing, telecommunications, broadcasting, tourism, and research and development industries. Such term shall not include retail businesses.
- (b) Not later than December 31 of each year, using the most current data available from the Department of Labor and the United States Department of Commerce, the commissioner of community affairs shall rank and designate as less developed areas the areas which are comprised of ten or more contiguous census tracts in this state using a combination of the following equally weighted factors:
 - (1) Highest unemployment rate for the most recent 36 month period;
 - (2) Lowest per capita income for the most recent 36 month period; and
 - (3) Highest percentage of residents whose income is below the poverty level according to the most recent data available.
- (c) The commissioner of community affairs also shall be authorized to include in the designation provided for in subsection (b) of this Code section:
 - (1) Any area comprised of ten or more contiguous census tracts which, in the opinion of the commissioner of community affairs, undergoes a sudden and severe period of economic distress caused by the closing of one or more business enterprises located in such area;
 - (2) Any area comprised of one or more census tracts adjacent to a federal military installation where pervasive poverty is evidenced by a 15 percent poverty rate or greater as reflected in the most recent decennial census;
 - (3) Any area comprised of one or more contiguous census tracts which, in the opinion of the commissioner of community affairs, is or will be adversely impacted by the loss of one or more jobs, businesses, or residences as a result of an airport expansion, including noise buy-outs, or the closing of a business enterprise which, in the opinion of the commissioner of community affairs, results or will result in a sudden and severe period of economic distress; or
 - (4) Any area which is within or adjacent to one or more contiguous census block groups with a poverty rate of 15 percent or greater as determined from data in the most current United States decennial census, where the area is also included within a state enterprise zone pursuant to Chapter 88 of Title 36 or where a redevelopment plan has been adopted pursuant to Chapter 61 of Title 36 and which, in the opinion of the commissioner of community affairs, displays pervasive poverty, underdevelopment, general distress, and blight.

Georgia Tax Credits: Details of the Business and Personal Credits Allowed Against Georgia's Income Tax (Appendix B)

No designation made pursuant to this subsection shall operate to displace or remove any other area previously designated as a less developed area. Notwithstanding any provision of this Code section to the contrary, in areas designated as suffering from pervasive poverty under this subsection, job tax credits shall be allowed as provided in this Code section, in addition to business enterprises, to any lawful business.

- (d) For business enterprises which plan a significant expansion in their labor forces, the commissioner of community affairs shall prescribe redesignation procedures to ensure that the business enterprises can claim credits in future years without regard to whether or not a particular area is removed from the list of less developed areas.
- (e) Business enterprises in areas designated by the commissioner of community affairs as less developed areas shall be allowed a job tax credit for taxes imposed under this article equal to \$3,500.00 annually per eligible new full-time employee job for five years beginning with the first taxable year in which the new full-time employee job is created and for the four immediately succeeding taxable years; provided, however, that where the amount of such credit exceeds a business enterprise's liability for such taxes in a taxable year, the excess may be taken as a credit against such business enterprise's quarterly or monthly payment under Code Section 48-7-103 but not to exceed in any one taxable year \$3,500.00 for each new full-time employee job when aggregated with the credit applied against taxes under this article. Each employee whose employer receives credit against such business enterprise's quarterly or monthly payment under Code Section 48-7-103 shall receive credit against his or her income tax liability under Code Section 48-7-20 for the corresponding taxable year for the full amount which would be credited against such liability prior to the application of the credit provided for in this subsection. Credits against quarterly or monthly payments under Code Section 48-7-103 and credits against liability under Code Section 48-7-20 established by this subsection shall not constitute income to the taxpayer. The number of new full-time jobs shall be determined by comparing the monthly average number of full-time employees subject to Georgia income tax withholding for the taxable year with the corresponding period of the prior taxable year. Only those business enterprises that increase employment by five or more in a less developed area shall be eligible for the credit; provided, however, that within areas of pervasive poverty as designated under paragraphs (2) and (4) of subsection (c) of this Code section businesses shall only have to increase employment by two or more jobs in order to be eligible for the credit, provided that, if a business only increases employment by two jobs, the persons hired for such jobs shall not be married to one another. The average wage of the new jobs created must be above the average wage of the county that has the lowest wage of any county in the state to qualify as reported in the most recently available annual issue of the Georgia Employment and Wages Averages Report of the Department of Labor. To qualify for a credit under this subsection, the employer must make health insurance coverage available to the employee filling the new full-time job; provided, however, that nothing in this subsection shall be construed to require

the employer to pay for all or any part of health insurance coverage for such an employee in order to claim the credit provided for in this subsection if such employer does not pay for all or any part of health insurance coverage for other employees. Credit shall not be allowed during a year if the net employment increase falls below five or two, as applicable. In any year in which the net employment increase falls below five or two, as applicable, the taxpayer shall forfeit the right to the credit claimed for that taxable year. For the year that the net employment increase falls below five or two, as applicable, a taxpayer that forfeits such right is therefore liable for all past taxes imposed by this article for that taxable year and all past payments under Code Section 48-7-103 for that taxable year that were foregone by the state as a result of the credits provided by this Code section; provided, however that Code Section 48-2-40 shall not apply to any such forfeiture. The state revenue commissioner shall adjust the credit allowed each year for net new employment fluctuations above the minimum level of five or two.

- (f) Tax credits for four years for the taxes imposed under this article shall be awarded for additional new full-time jobs created by business enterprises qualified under subsection (b) or (c) of this Code section. Additional new full-time jobs shall be determined by subtracting the highest total employment of the business enterprise during years two through five, or whatever portion of years two through five which has been completed, from the total increased employment. The state revenue commissioner shall adjust the credit allowed in the event of employment fluctuations during the additional five years of credit.
- (g) The sale, merger, acquisition, or bankruptcy of any business enterprise shall not create new eligibility in any succeeding business entity, but any unused job tax credit may be transferred and continued by any transferee of the business enterprise. The commissioner of community affairs shall determine whether or not qualifying net increases or decreases have occurred and may require reports, promulgate regulations, and hold hearings as needed for substantiation and qualification.
- (h) Any credit claimed under this Code section but not used in any taxable year may be carried forward for ten years from the close of the taxable year in which the qualified jobs were established, subject to forfeiture as provided in subsection (e) of this Code section, but the credit established by this Code section taken in any one taxable year shall be limited to an amount not greater than 100 percent of the taxpayer's state income tax liability which is attributable to income derived from operations in this state for that taxable year.
- (i) Notwithstanding Code Section 48-2-35, any tax credit claimed under this Code section shall be claimed within one year of the earlier of the date the original tax return was filed or the date such return was due as prescribed in subsection (a) of Code Section 48-7-56, including any approved extensions.

Georgia Tax Credits: Details of the Business and Personal Credits Allowed Against Georgia's Income Tax (Appendix B)

- (j) Taxpayers that initially claimed the credit under this Code section for any taxable year beginning before January 1, 2009, shall be governed, for purposes of all such credits claimed as well as any credits claimed in subsequent taxable years related to such initial claim, by this Code section as it was in effect for the taxable year in which the taxpayer made such initial claim.

2. Quality Jobs Tax Credit

Statutory Language:

O.C.G.A. §48-7-40.17. Establishing or relocating headquarters; tax credit.

- (a) As used in this Code section, the term:
 - (1) "Average wage" means the average wage of the county in which a new quality job is located as reported in the most recently available annual issue of the Georgia Employment and Wages Averages Report of the Department of Labor.
 - (2) "New quality job" means employment for an individual which:
 - (A) Is located in this state;
 - (B) Has a regular work week of 30 hours or more;
 - (C) Is not a job that is or was already located in Georgia regardless of which taxpayer the individual performed services for;
 - (D) Pays at or above 110 percent of the average wage of the county in which it is located; and
 - (E) Has no predetermined end date.
- (b) A taxpayer establishing new quality jobs in this state or relocating quality jobs into this state which elects not to receive the tax credits provided for by Code Sections 48-7-40, 48-7-40.1, 48-7-40.2, 48-7-40.3, 48-7-40.4, 48-7-40.7, 48-7-40.8, and 48-7-40.9 for such jobs and investments created by, arising from, related to, or connected in any way with the same project and, within one year of the first date on which the taxpayer pursuant to the provisions of Code Section 48-7-101 withholds wages for employees in this state and employs at least 50 persons in new quality jobs in this state, shall be allowed a credit for taxes imposed under this article:

Georgia Tax Credits: Details of the Business and Personal Credits Allowed Against Georgia's Income Tax (Appendix B)

- (1) Equal to \$2,500.00 annually per eligible new quality job where the job pays 110 percent or more but less than 120 percent of the average wage of the county in which the new quality job is located;
- (2) Equal to \$3,000.00 annually per eligible new quality job where the job pays 120 percent or more but less than 150 percent of the average wage of the county in which the new quality job is located;
- (3) Equal to \$4,000.00 annually per eligible new quality job where the job pays 150 percent or more but less than 175 percent of the average wage of the county in which the new quality job is located;
- (4) Equal to \$4,500.00 annually per eligible new quality job where the job pays 175 percent or more but less than 200 percent of the average wage of the county in which the new quality job is located; and
- (5) Equal to \$5,000.00 annually per eligible new quality job where the job pays 200 percent or more of the average wage of the county in which the new quality job is located; provided, however, that where the amount of such credit exceeds a taxpayer's liability for such taxes in a taxable year, the excess may be taken as a credit against such taxpayer's quarterly or monthly payment under Code Section 48-7-103 but not to exceed in any one taxable year the credit amounts in paragraphs (1) through (5) of this subsection for each new quality job when aggregated with the credit applied against taxes under this article. Each employee whose employer receives credit against such taxpayer's quarterly or monthly payment under Code Section 48-7-103 shall receive a credit against his or her income tax liability under Code Section 48-7-20 for the corresponding taxable year for the full amount which would be credited against such liability prior to the application of the credit provided for in this subsection. Credits against quarterly or monthly payments under Code Section 48-7-103 and credits against liability under Code Section 48-7-20 established by this subsection shall not constitute income to the taxpayer. For each new quality job created, the credit established by this subsection may be taken for the first taxable year in which the new quality job is created and for the four immediately succeeding taxable years; provided, however, that such new quality jobs must be created within seven years from the close of the taxable year in which the taxpayer first becomes eligible for such credit. Credit shall not be allowed during a year if the net employment increase falls below the 50 new quality jobs required. Any credit received for years prior to the year in which the net employment increase falls below the 50 new quality jobs required shall not be affected except as provided in subsection (f) of this Code section. The commissioner shall adjust the credit allowed each year for net new employment fluctuations above the 50 new quality jobs required.

Georgia Tax Credits: Details of the Business and Personal Credits Allowed Against Georgia's Income Tax (Appendix B)

- (c) The number of new quality jobs to which this Code section shall be applicable shall be determined by comparing the monthly average of new quality jobs subject to Georgia income tax withholding for the taxable year with the corresponding average for the prior taxable year.
- (d) Any credit claimed under this Code section but not used in any taxable year may be carried forward for ten years from the close of the taxable year in which the new quality jobs were established.
- (e) Notwithstanding Code Section 48-2-35, any tax credit claimed under this Code section shall be claimed within one year of the earlier of the date the original return was filed or the date such return was due as prescribed in subsection (a) of Code Section 48-7-56, including any approved extensions.
- (f) If the taxpayer has failed to maintain a new quality job in a taxable year, the taxpayer shall forfeit the right to the credit claimed for such job in that year. For each year such new quality job is not maintained, a taxpayer that forfeits such right is therefore liable for all past taxes imposed by this article for that taxable year and all past payments under Code Section 48-7-103 for that taxable year that were foregone by the state as a result of the credits provided by this Code section; provided, however, that Code Section 48-2-40 shall not apply to any such forfeiture.
- (g) Taxpayers that initially claimed the credit under this Code section for any taxable year beginning before January 1, 2009, shall be governed, for purposes of all such credits claimed as well as any credits claimed in subsequent taxable years related to such initial claim, by this Code section as it was in effect for the taxable year in which the taxpayer made such initial claim.
- (h) The commissioner shall promulgate any rules and regulations necessary to implement and administer this Code section.

For purposes of this paragraph, leased employees will be considered employees of the company using their services and such persons may be counted in determining the company's job tax credits under this Code section if their employment otherwise meets the definition of full-time job contained herein. In addition, an individual's employment shall not be deemed to have a predetermined end date solely by virtue of a mandatory retirement age set forth in a company policy of general application. The employment of any individual in a bona fide executive, administrative, or professional capacity, within the meaning of Section 13 of the federal Fair Labor Standards Act of 1938, as amended, 29 U.S.C. Georgia Tax Credits: Details of the Business and Personal Credits Allowed Against Georgia's Income Tax (Appendix B)

- (11) "Qualified project" means a project which meets the job creation requirement and either the payroll requirement or qualified investment property requirement. If the taxpayer selects the qualified investment property requirement as one of the conditions for its project, the property shall involve the construction of one or more new facilities in this state or the expansion of one or more existing facilities in this state. For purposes of this paragraph, the term "facilities" means all facilities comprising a single project, including noncontiguous parcels of land, improvements to such land, buildings, building improvements, and any personal property that is used in the facility or facilities.
 - (12) "Recapture period" means the period of five consecutive taxable years that commences after the first taxable year in which a business enterprise has satisfied the job creation requirement and either the payroll requirement or the qualified investment property requirement, as selected by the taxpayer.
 - (13) "Withholding start date" means the date on which the business enterprise begins to withhold Georgia income tax from the wages of its employees located at the site or sites of a qualified project.
- (b) A business enterprise that is planning a qualified project shall be allowed to take the job tax credit provided by this Code section under the following conditions:
- (1) An application is filed with the commissioner that:
 - (A) Describes the qualified project to be undertaken by the business enterprise, including when such project will commence and the expected withholding start date;
 - (B) Certifies that such project will meet the job creation requirement and either the payroll requirement or the qualified investment property requirement prescribed by this Code section; and
 - (C) Certifies that during the recapture period applicable to such project the business enterprise will meet the job maintenance requirement and, if applicable, the payroll maintenance requirement prescribed by this Code section;
 - (2) Following the commissioner's referral of the application to a panel composed of the commissioner of community affairs, the commissioner of economic development, and the director of the Office of Planning and Budget, said panel, after reviewing the application, certifies that the new or expanded facility or facilities will have a significant beneficial economic effect on the region for which they are planned. The panel shall make its determination within 30 days after receipt from the commissioner of the taxpayer's application and any necessary supporting documentation. Although the panel's certification may be based upon other criteria, a project that meets the minimum job creation

Georgia Tax Credits: Details of the Business and Personal Credits Allowed Against Georgia's Income Tax (Appendix B)

requirement and either the payroll requirement or qualified investment property requirement, as applicable, specified in paragraph (1) of this subsection will have a significant beneficial economic effect on the region for which it is planned if one of the following additional criteria is met:

- (A) The project will create new full-time employee jobs with average wages that are, as determined by the Department of Labor, for all jobs for the county in question:
 - (i) Twenty percent above such average wage for projects located in tier 1 counties;
 - (ii) Ten percent above such average wage for projects located in tier 2 counties; or
 - (iii) Five percent above such average wage for projects located in tier 3 or tier 4 counties; or
- (B) The project demonstrates high growth potential based upon the prior year's Georgia net taxable income growth of over 20 percent from the previous year, if the taxpayer's Georgia net taxable income in each of the two preceding years also grew by 20 percent or more.
- (c) Any lease for a period of five years or longer of any real or personal property used in a new or expanded facility or facilities which would otherwise constitute qualified investment property shall be treated as the purchase or acquisition thereof by the lessee. The taxpayer may treat the full value of the leased property as qualified investment property in the year in which the lease becomes binding on the lessor and the taxpayer.
- (d) A business enterprise whose application is approved shall be allowed a tax credit for taxes imposed under this article equal to \$5,250.00 annually per new eligible full-time employee job for five years beginning with the year in which such job is created through year five after such creation; provided, however, that where the amount of such credit exceeds a business enterprise's liability for such taxes in a taxable year, the excess may be taken as a credit against such business enterprise's quarterly or monthly payment under Code Section 48-7-103. The taxpayer may file an election with the commissioner to take such credit against quarterly or monthly payments under Code Section 48-7-103 that become due before the due date of the income tax return on which such credit may be claimed. In the event of such an election, the commissioner shall confirm with the taxpayer a date, which shall not be later than 30 days after receipt of the taxpayer's election, when the taxpayer may begin to take the credit against such quarterly or monthly payments. For any one taxable year the amounts taken as a credit against taxes imposed under this article and against the business enterprise's quarterly or monthly payments under Code Section 48-7-103 may not in the aggregate exceed \$5,250.00 per eligible full-time employee job. Each employee whose employer receives credit against such business enterprise's quarterly or monthly payment under Code Section 48-7-103 shall receive a credit

Georgia Tax Credits: Details of the Business and Personal Credits Allowed Against Georgia's Income Tax (Appendix B)

against his or her income tax liability under Code Section 48-7-20 for the corresponding taxable year for the full amount which would be credited against such liability prior to the application of the credit provided for in this subsection. Credits against quarterly or monthly payments under Code Section 48-7-103 and credits against liability under Code Section 48-7-20 established by this subsection shall not constitute income to the taxpayer. To qualify for a credit under this subsection, the employer must make health insurance coverage available to the employee filling the new full-time job; provided, however, that nothing in this subsection shall be construed to require the employer to pay for all or any part of health insurance coverage for such an employee in order to claim the credit provided for in this subsection if such employer does not pay for all or any part of health insurance coverage for other employees.

- (e) The number of new full-time jobs to which this Code section shall be applicable shall be determined by comparing the monthly average number of eligible full-time employees subject to Georgia income tax withholding for the taxable year with the corresponding period for the prior taxable year.
- (f) The sale, merger, acquisition, or bankruptcy of any business enterprise shall not create new eligibility in any succeeding business entity, but any unused job tax credit may be transferred and continued by any transferee of the business enterprise.
- (g) To qualify for the credit provided by this Code section a new full-time job must be created by the close of the seventh taxable year following the business enterprise's withholding start date. In no event may a credit be claimed under this Code section for more than 3,300 new full-time employee jobs created by any one project; provided, however, that the taxpayer may claim the credits provided by Code Sections 48-7-40 and 48-7-40.1 for any such additional jobs if the taxpayer meets the terms and conditions thereof.
- (h) Any credit claimed under this Code section but not fully used in the manner prescribed in subsection (d) of this Code section may be carried forward for ten years from the close of the taxable year in which the qualified job was established.
- (i) Except as provided in subsection (g) of this Code section, a taxpayer who is entitled to and takes credits provided by this Code section for a qualified project shall not be allowed to take any of the credits authorized by Code Section 48-7-40, 48-7-40.1, 48-7-40.2, 48-7-40.3, 48-7-40.4, 48-7-40.6, 48-7-40.7, 48-7-40.8, 48-7-40.9, 48-7-40.10, 48-7-40.11, 48-7-40.15, 48-7-40.17, or 48-7-40.18 for jobs, investments, child care, or ground-water usage shifts created by, arising from, related to, or connected in any way with the same project. Provided such taxpayer otherwise qualifies, such taxpayer may take any credit authorized by Code Section 48-7-40.5 for the costs of retraining an employee located at the site or sites of such project or the facility or facilities resulting there from, but only

Georgia Tax Credits: Details of the Business and Personal Credits Allowed Against Georgia's Income Tax (Appendix B)

for costs incurred more than five years after the date the facility or facilities first become operational.

- (j) Except under those circumstances described in subsection (k) of this Code section, the taxpayer shall, not more than 60 days after the close of the sixth taxable year following its withholding start date, file a report with the commissioner concerning the number of eligible full-time employee jobs created by such project; the wages of such jobs; the qualified investment property purchased or acquired by the taxpayer for the project; and any other information that the commissioner may reasonably require in order to determine whether the taxpayer has met the job creation requirement and either the payroll requirement or the qualified investment property requirement, as selected by the taxpayer, for such project. If the taxpayer has failed to meet any applicable job creation, payroll, or qualified investment property requirement, the taxpayer will forfeit the right to claim any credits provided by this Code section for such project. A taxpayer that forfeits the right to claim such credits is liable for all past taxes imposed by this article and all past payments under Code Section 48-7-103 that were foregone by the state as a result of the credits, plus interest at the rate established by Code Section 48-2-40 computed from the date such taxes or payments would have been due if the credits had not been taken. No later than 90 days after notification from the commissioner that any applicable job creation, payroll, or qualified investment property requirement was not met, the taxpayer shall file amended income tax and withholding tax returns for all affected periods that recalculate those liabilities without regard to the forfeited credits and shall pay any additional amounts shown on such returns, with interest as provided herein. On such amended returns the taxpayer may claim any credit to which it would have been entitled under this article but for having taken the credit provided by this Code section.
- (k) If the recapture period applicable to a qualified project begins with or before the sixth taxable year following the taxpayer's withholding start date, the taxpayer shall, not later than 60 days after the close of the taxable year immediately preceding the recapture period, file a report with the commissioner concerning the number of eligible full-time employee jobs created by such project; the wages of such jobs; the qualified investment property purchased or acquired by the taxpayer for the project; and any other information that the commissioner may reasonably require in order to verify that the taxpayer met the job creation requirement and either the payroll requirement or the qualified investment property requirement in such preceding year.
- (l) Not more than 60 days after the close of each taxable year within the recapture period, the taxpayer shall file a report, using such form and providing such information as the commissioner may reasonably require, concerning whether it met the job maintenance requirement and, if applicable, the payroll maintenance requirement for such year. For purposes of this subsection, whether such job maintenance requirement has been satisfied shall be determined by comparing the

Georgia Tax Credits: Details of the Business and Personal Credits Allowed Against Georgia's Income Tax (Appendix B)

monthly average number of eligible full-time employees subject to Georgia income tax withholding for the taxable year with 1,800. For purposes of this subsection, whether such payroll maintenance requirement has been satisfied shall be determined by comparing the total annual Georgia W-2 reported payroll with respect to a qualified project for the taxable year with \$150 million. If the taxpayer has failed to meet the job maintenance requirement or payroll maintenance requirement, or both, for such year, the taxpayer will forfeit the right to 20 percent of all credits provided by this Code section for such project. A taxpayer that forfeits such right is liable for 20 percent of all past taxes imposed by this article and all past payments under Code Section 48-7-103 that were foregone by the state as a result of the credits provided by this Code section, plus interest at the rate established by Code Section 48-2-40 computed from the date such taxes or payments would have been due if the credits had not been taken. No later than 90 days after notification by the commissioner that the taxpayer has failed to meet the job maintenance requirement or payroll maintenance requirement, or both, for such year, the taxpayer shall file amended income tax and withholding tax returns for all affected periods that recalculate those liabilities without regard to the forfeited credits and shall pay any additional amounts shown on such returns, with interest as provided herein.

- (m) A taxpayer who fails to meet the job maintenance requirement or payroll maintenance requirement, or both, for any taxable year within the recapture period because of force majeure may petition the commissioner for relief from such requirement. Such a petition must be made with and at the same time as the report required by subsection (l) of this Code section. If the commissioner determines that force majeure materially affected the taxpayer's ability to meet the job maintenance requirement or payroll maintenance requirement, or both, for such year, but that the portion of the year so affected was six months or less, for purposes of the job maintenance requirement the commissioner shall calculate the taxpayer's monthly average number of eligible full-time employees for purposes of subsection (l) of this Code section by disregarding the affected months and for purposes of the payroll maintenance requirement the commissioner shall annualize the total Georgia W-2 reported payroll with respect to a qualified project for the portion of the year not so affected. If the commissioner determines that the affected portion of the year was more than six months, the taxable year shall be disregarded in its entirety for purposes of the job maintenance requirement or payroll maintenance requirement, or both, and the recapture period applicable to the qualified project shall be extended for an additional year.
- (n) Unless more time is allowed therefore by Code Section 48-7-82 or 48-2-49, the commissioner may make any assessment attributable to the forfeiture of credits claimed under this Code section for the periods covered by any amended returns filed by a taxpayer pursuant to subsection (j) or (l) of this Code section within one year from the date such returns are filed. If the taxpayer fails to file the reports or any amended return required by subsection (j) or (l) of this Code Section, the

Georgia Tax Credits: Details of the Business and Personal Credits Allowed Against Georgia's Income Tax (Appendix B)

commissioner may assess additional tax or other amounts attributable to the forfeiture of credits claimed under this Code section at any time.

- (o) Projects certified by the panel pursuant to paragraph (2) of subsection (b) of this Code section before January 1, 2009, shall be governed by this Code section as it was in effect for the taxable year the project was certified.
- (p) The commissioner shall promulgate any rules and regulations necessary to implement and administer this Code section.

In addition, an individual's employment shall not be deemed to have a predetermined end date solely by virtue of a mandatory retirement age set forth in a company policy of general application. The employment of any individual in a bona fide executive, administrative, or professional capacity, within the meaning of Section 13 of the federal Fair Labor Standards Act of 1938, as amended, 29 U.S.C. For purposes of this paragraph, the term "manufacturing facility" means a single facility, including contiguous parcels of land, improvements to such land, buildings, building improvements, and any machinery or equipment that is used in the process of making, fabricating, constructing, forming, or assembling a product from components or from raw, unfinished, or semifinished materials, and any support facility. For purposes of this paragraph, the term "support facility" means any warehouses, distribution centers, storage facilities, research and development facilities, laboratories, repair and maintenance facilities, corporate offices, sales or marketing offices, computer operations facilities, or administrative offices that are contiguous to the manufacturing facility that results from a qualified project, constructed or expanded as part of the same such project, and designed primarily for activities supporting the manufacturing operations at such manufacturing facility.

The panel shall make its determination within 30 days after receipt from the

Georgia Tax Credits: Details of the Business and Personal Credits Allowed Against Georgia's Income Tax (Appendix B)

commissioner of the taxpayer's application and any necessary supporting documentation. Although the panel's certification may be based upon other criteria, a project that meets the minimum job and investment requirements specified in paragraph (1) of this subsection will have a significant beneficial economic effect on the region for which it is planned if one of the following additional criteria is met:

- (A) The full-time employee jobs that will be located at the manufacturing facility resulting from such project will pay average wages that are, as determined by the Georgia Department of Labor for all jobs for the county in question:
 - (i) Twenty percent above such average wage for projects located in tier 1 counties;

 - (iii) Five percent above such average wage for projects located in tier 3 or tier 4 counties; or

- (c) Any lease for a period of five years or longer of any real or personal property used in a new manufacturing facility which would otherwise constitute qualified investment property shall be treated as the purchase or acquisition thereof by the lessee. - (d) A business enterprise whose application is approved shall be allowed a credit against the tax imposed under this article in an amount equal to 6 percent of the cost of all qualified investment property purchased or acquired by the business enterprise in such year, subject to the conditions and limitations set forth in this Code section. Where the amount of such credit exceeds a business enterprise's liability for such taxes in a taxable year, the excess may be taken as a credit against such business enterprise's quarterly or monthly payment under Code Section 48-7-103. The taxpayer may file an election with the commissioner to take such credit against quarterly or monthly payments under Code Section 48-7-103 that become due before the due date of the income tax return on which such credit may be claimed. In the event of such an election, the commissioner shall confirm with the taxpayer a date, which shall not be later than 30 days after receipt of the taxpayer's election, when the taxpayer may begin to take the credit against such quarterly or monthly payments. Each employee whose employer receives credit against such business enterprise's quarterly or monthly payment under Code Section 48-7-103 shall receive credit against his or her income tax liability under Code Section 48-7-20 for

Georgia Tax Credits: Details of the Business and Personal Credits Allowed Against Georgia's Income Tax (Appendix B)

the corresponding taxable year for the full amount which would be credited against such liability prior to the application of the credit provided for in this subsection. Credits against quarterly or monthly payments under Code Section 48-7-103 and credits against liability under Code Section 48-7-20 established by this subsection shall not constitute income to the taxpayer.

(e) The credit granted under subsection (d) of this Code section shall be subject to the following conditions and limitations:

(1) In order to qualify as a basis for the credit, the investment in qualified investment property must occur no sooner than April 1, 2003. The credit may be taken beginning with the taxable year in which the taxpayer has met both the investment requirement and the job requirement, and for such first year the credit may include qualified investment property purchased or acquired in prior years but after March 31, 2003. For each year in which a taxpayer claims the credit, the taxpayer shall attach a schedule to the taxpayer's Georgia income tax return which will set forth the following information, as a minimum:

(A) A description of the qualified project;

(B) The amount of qualified investment property acquired during the taxable year;

(C) The amount of tax credit claimed for the taxable year;

(D) The amount of qualified investment property acquired in prior taxable years;

(E) Any tax credit previously taken by the taxpayer against Georgia income tax liabilities or the taxpayer's quarterly or monthly payments under Code Section 48-7-103;

(F) The amount of tax credit carried over from prior years;

(G) The amount of tax credit utilized by the taxpayer in the current taxable year;

(H) The amount of tax credit to be carried over to subsequent tax years; and

(I) The monthly average number of full-time jobs during the taxable year;

(1) Any credit claimed under this Code section but not fully used in the manner prescribed in subsection (d) of this Code section may be carried forward for 15 years from the close of the later of:

(A) The taxable year in which the qualified investment property was acquired; or

Georgia Tax Credits: Details of the Business and Personal Credits Allowed Against Georgia's Income Tax (Appendix B)

(B) The taxable year in which both the job requirement and investment requirement are satisfied.

The sale, merger, acquisition, or bankruptcy of any business enterprise shall not create new eligibility in any succeeding business entity but any unused investment tax credit may be transferred and continued by any transferee of the business enterprise;

- (2) In the initial year in which the taxpayer claims the credit granted in subsection (d) of this Code section, the taxpayer shall include in the description of the project required by subparagraph (A) of paragraph (1) of this subsection information which demonstrates that the project includes the acquisition of qualified investment property having an aggregate cost equal to or exceeding \$800 million and that the job requirement was satisfied during such year; and
- (3) The utilization of the credit granted in subsection (d) of this Code section shall have no effect on the taxpayer's ability to claim depreciation for tax purposes on the assets acquired by the taxpayer, nor shall the credit have any effect on the taxpayer's basis in such assets for the purpose of depreciation.
- (f) In no event may credits exceeding \$50 million in the aggregate be claimed under this Code section with respect to any one project.
- (g) A taxpayer who is entitled to and takes credits provided by this Code section with respect to a qualified project shall not be allowed to take any of the credits authorized by Code Section 48-7-40, 48-7-40.1, 48-7-40.2, 48-7-40.3, 48-7-40.4, 48-7-40.6, 48-7-40.7, 48-7-40.8, 48-7-40.9, 48-7-40.10, 48-7-40.11, 48-7-40.15, 48-7-40.17, 48-7-40.18, or 48-7-40.24 with respect to jobs, investments, child care, or ground-water usage shifts created by, arising from, related to, or connected in any way with the same project. Such taxpayer may take any credit authorized by Code Section 48-7-40.5 for the cost of retraining an employee located at the site of such project or the manufacturing facility resulting there from, but only with respect to costs incurred more than five years after the date the manufacturing facility first becomes operational.
- (h) Not more than 60 days after the close of the fifth taxable year within the recapture period, the taxpayer shall file a report, using such form and providing such information as the commissioner may reasonably require, concerning whether it met the job maintenance requirement. If the taxpayer has failed to meet the job maintenance requirement, the taxpayer will forfeit the right to all credits provided by this Code section for such project. A taxpayer that forfeits such right is liable for all past taxes imposed by this article and all past payments under Code Section 48-7-103 that were forgone by the state as a result of the credits provided by this Code section, plus interest at the rate established by Code Section 48-2-40 computed from the date such taxes or payments would have been due if the credits had not been taken. No later than 90 days after notification by the

commissioner that the taxpayer has failed to meet the job maintenance requirement, the taxpayer shall file amended income tax and withholding tax returns for all affected periods that recalculate those liabilities without regard to the forfeited credits and shall pay any additional amounts shown on such returns, with interest as provided herein.

- (i) A taxpayer who fails to meet the job maintenance requirement because of force majeure may petition the commissioner for relief from such requirement. Such a petition must be made with and at the same time as the report required by subsection (h) of this Code section. If the commissioner determines that force majeure materially affected the taxpayer's ability to meet the job maintenance requirement, but that the portion of any year so affected was six months or less, the commissioner shall calculate the taxpayer's monthly average number of full-time employees for purposes of subsection (h) of this Code section by disregarding the affected months. If the commissioner determines that the affected portion of any such year was more than six months, the taxable year shall be disregarded in its entirety for purposes of the job maintenance requirement and the recapture period applicable to the qualified project shall be extended for an additional year.
- (j) If the manufacturing facility resulting from a qualified project is abandoned at any time during the recapture period, the taxpayer will forfeit the right to all credits provided by this Code section for such project. A taxpayer that forfeits such right is liable for all past taxes imposed by this article and all past payments under Code Section 48-7-103 that were forgone by the state as a result of the credits provided by this Code section, plus interest at the rate established by Code Section 48-2-40 computed from the date such taxes or payments would have been due if the credits had not been taken. For purposes of this subsection, a manufacturing facility will be considered abandoned if there is, for any reason other than force majeure, a complete cessation of manufacturing operations for a period of 12 consecutive months or more during the recapture period. Not more than 60 days after the close of the recapture period, the taxpayer shall file a report, using such form and providing such information as the commissioner may require, concerning whether such an abandonment occurred. No later than 90 days after notification by the commissioner that an abandonment occurred, the taxpayer shall file amended income tax and withholding tax returns for all affected periods that recalculate those liabilities without regard to the forfeited credits and shall pay any additional amounts shown on such returns, with interest as provided herein.
- (k) Unless more time is allowed therefore by Code Section 48-7-82 or 48-2-49, the commissioner may make any assessment attributable to the forfeiture of credits claimed under this Code section for the periods covered by any amended returns filed by a taxpayer pursuant to subsections (h) and (j) of this Code section within one year from the date such returns are filed. If the taxpayer fails to file the reports or any amended return required by subsections (h) and (j) of this Code

Georgia Tax Credits: Details of the Business and Personal Credits Allowed Against Georgia's Income Tax (Appendix B)

section, the commissioner may assess additional tax or other amounts attributable to the forfeiture of credits claimed under this Code section at any time.

- (l) The commissioner shall promulgate any rules and regulations necessary to implement and administer this Code section.

- (2) "Qualified investment property" means all real and personal property purchased or acquired by a taxpayer for use in the construction of an additional manufacturing or telecommunications facility to be located in this state or the expansion of an existing manufacturing or telecommunications facility located in this state, including, but not limited to, amounts expended on land acquisition, improvements, buildings, building improvements, and machinery and equipment to be used in the manufacturing or telecommunications facility. The department shall promulgate rules defining eligible manufacturing facilities, telecommunications facilities, and qualified investment property pursuant to this paragraph.
- (3) "Recovered materials" means those materials, including but not limited to such materials as aluminum, oil, plastic, paper, paper products, scrap metal, iron, glass, and rubber, which have known use, reuse, or recycling potential; can be feasibly used, reused, or recycled; and have been diverted or removed from the solid waste stream for sale, use, reuse, or recycling, whether or not requiring subsequent separation and processing.
- (4) "Recycling" means any process by which materials which would otherwise become solid waste are collected, separated, or processed and reused or returned to use in the form of raw materials or products.
- (5) "Recycling machinery and equipment" means all tangible personal property used, directly or indirectly, to sort, store, prepare, convert, process, fabricate, or

manufacture recovered materials into finished products which are composed of at least 25 percent recovered materials, such term including, but not being limited to, power generation and pollution control machinery and equipment.

- (6) "Recycling manufacturing facility" means any facility, including land, improvements to land, buildings, building improvements, and any recycling machinery and equipment used in the recycling process resulting in the manufacture of finished products from recovered materials, provided that up to 10 percent of any building that is a component of a recycling facility may be used for office space to house support staff for the recycling operation.
- (b) In the case of a taxpayer which has operated for the immediately preceding three years an existing manufacturing or telecommunications facility or manufacturing or telecommunications support facility in this state in a tier 1 county designated pursuant to Code Section 48-7-40, there shall be allowed a credit against the tax imposed under this article in an amount equal to 5 percent of the cost of all qualified investment property purchased or acquired by the taxpayer in such year, subject to the conditions and limitations set forth in this Code section. In the event such qualified investment property purchased or acquired by the taxpayer in such year consists of recycling machinery or equipment, a recycling manufacturing facility, pollution control or prevention machinery or equipment, a pollution control or prevention facility, or the conversion from defense to domestic production, the amount of such credit shall be equal to 8 percent.
- (c) The credit granted under subsection (b) of this Code section shall be subject to the following conditions and limitations:
 - (1) In order to qualify as a basis for the credit, the investment in qualified investment property must occur no sooner than January 1, 1995. The credit may be taken beginning with the tax year immediately following the tax year in which the qualified investment property having an aggregate cost in excess of \$50,000.00 is purchased or acquired by the taxpayer. For every year in which a taxpayer claims the credit, the taxpayer shall attach a schedule to the taxpayer's Georgia income tax return which will set forth the following information, as a minimum:

The credit established by this Code section taken in any one taxable year shall be limited to an amount not greater than 50 percent of the taxpayer's state income tax liability which is attributable to income derived from operations in this state for that taxable year. The sale, merger, acquisition, or bankruptcy of any taxpayer shall not create new eligibility in any succeeding taxpayer, but any unused credit may be transferred and continued by any transferee of the taxpayer;
- (3) In the initial year in which the taxpayer claims the credit granted in subsection (b) of this Code section, the taxpayer shall include in the description of the project required by subparagraph (A) of paragraph (1) of this subsection information which demonstrates that the project includes the acquisition of qualified investment property having an aggregate cost in excess of \$50,000.00;
- (4) Any lease for a period of five years or longer of any real or personal property used in a new or expanded manufacturing or telecommunications facility which would otherwise constitute qualified investment property shall be treated as the purchase or acquisition of qualified investment property by the lessee. The taxpayer may treat the full value of the leased property as qualified investment property in the taxable year in which the lease becomes binding on the lessor and the taxpayer if all other conditions of this subsection have been met; and
- (5) The utilization of the credit granted in subsection (b) of this Code section shall have no effect on the taxpayer's ability to claim depreciation for tax purposes on the assets acquired by the taxpayer, nor shall the credit have any effect on the taxpayer's basis in such assets for the purpose of depreciation.
- (d)(1) Except as otherwise provided in paragraph (2) of this subsection, no taxpayer shall be authorized to claim on a tax return for a given project the credit provided for in this Code section if such taxpayer claims on such tax return any of the credits authorized under Code Section 48-7-40 or 48-7-40.1.

However, a person who provides uncompensated professional advice to a qualified business whether as an officer, a member of the board of directors or managers or otherwise or participates in a stock or membership option or stock or membership plan, or both, shall be eligible for the credit;
 - (4) The amount of the credit recaptured shall apply only to the qualified investment in the particular qualified business in which the investment was made;
 - (5) The amount of the recaptured tax credit determined under this subsection shall be added to the qualified investor's income tax liability for the taxable year in which the recapture occurs under this subsection; and

Georgia Tax Credits: Details of the Business and Personal Credits Allowed Against Georgia's Income Tax (Appendix B)

- (i) (1) A qualified investor seeking to claim a tax credit provided for under this Code section must submit an application to the commissioner for tentative approval of such tax credit between September 1 and October 31 of the year for which the tax credit is claimed or allowed. The commissioner shall promulgate the rules and forms on which the application is to be submitted. Amounts specified on such application shall not be changed by the qualified investor after the application is approved by the commissioner. The commissioner shall review such application and shall tentatively approve such application upon determining that it meets the requirements of this Code section.
- (2) The commissioner shall provide tentative approval of the applications by the date provided in paragraph (3) of this subsection as follows:
 - (A) The total aggregate amount of all tax credits allowed to qualified investors or pass-through entities for investments made in the 2011 calendar year and claimed and allowed in the 2013 taxable year shall not exceed \$10 million in such year;

 - (C) The total aggregate amount of all tax credits allowed to qualified investors or pass-through entities for investments made in the 2013 calendar year and claimed and allowed in the 2015 taxable year shall not exceed \$10 million in such year.
- (3) The commissioner shall notify each qualified investor of the tax credits tentatively approved and allocated to such qualified investor by December 31 of the year in which the application was submitted. In the event that the credit amounts on the tax credit applications filed with the commissioner exceed the maximum aggregate limit of tax credits under this subsection, then the tax credits shall be allocated among the qualified investors who filed a timely application on a pro rata basis based upon the amounts otherwise allowed by this Code section. Once the tax credit application has been approved and the amount approved has been communicated to the applicant, the qualified investor may then apply the amount of the approved tax credit to its tax liability for the tax year for which the approved application applies.

- (5) A transferee shall have only such rights to claim and use the tax credit that were available to such production company at the time of the transfer, except for the use of the credit in paragraph (1) of subsection (e) of this Code section. To the extent that such production company did not have rights to claim or use the tax credit at the time of the transfer, the Department of Revenue shall either disallow the tax credit claimed by the transferee or recapture the tax credit from the transferee. The transferee's recourse is against such production company; and

- (3) In no event shall the amount of the tax credit under this Code section for a taxable year exceed the production company's income tax liability. Any unused credit amount shall be allowed to be carried forward for five years from the close of the taxable year in which the investment occurred. No such credit shall be allowed the production company against prior years' tax liability.

- (1) "Eligible telework expenses" means expenses incurred during the calendar year pursuant to a telework agreement, up to a limit of \$1,200.00 for each participating employee, to enable a participating employee to begin to telework, which expenses are not otherwise the subject of a deduction from income claimed by the employer in any tax year. Such expenses shall include, but not be limited to, expenses paid or incurred to purchase computers, computer related hardware and software, modems, data processing equipment, telecommunications equipment, high-speed Internet connectivity equipment, computer security software and devices, and all related delivery, installation, and maintenance fees. Such expenses shall not include replacement costs for computers, computer related hardware and software, modems, data processing equipment, telecommunications equipment, or computer security software and devices at the principal place of business when that equipment is relocated to the telework site. Such expenses shall not include expenses for which a credit is claimed under any other provision of this article. Such expenses may be incurred only once per employee. Such expenses may be incurred directly by the employer on behalf of the participating employee or directly by the participating employee and subsequently reimbursed by the employer.
 - (2) "Employer" means any employer upon whom an income tax is imposed by this article.

Such costs shall not be eligible for such credit if they are otherwise the subject of a deduction from income claimed by the employer in any tax year. Costs incurred on or after July 1, 2007, and before January 1, 2008, shall be treated as being incurred on January 1, 2008, for purposes of this Code section. The commissioner shall review such application and shall tentatively approve such application upon determining that it meets the requirements of this Code section.
- (2) The commissioner shall provide tentative approval of the applications by the date provided in paragraph (3) of this subsection. In no event shall the aggregate amount of tax credits approved by the commissioner for all qualified employers under this Code section in a calendar year exceed:

In the event the employer has a tax year other than a calendar year and the calendar year expenses are incurred in more than one taxable year, the credit shall be applied to each taxable year based upon when the expenses were incurred.

- (a) As used in this Code section, the term:
 - (1) "Authority" means the Georgia Environmental Finance Authority.
 - (2) "Business property" means tangible personal property that is used by the taxpayer in connection with a business or for the production of income and is capitalized by the taxpayer for federal income tax purposes. The term does not include, however, a luxury passenger automobile taxable under Section 4001 of the Internal Revenue Code or a watercraft used principally for entertainment and pleasure outings for which no admission is charged.
 - (3) "Clean energy property" includes any of the following:
 - (A) Solar energy equipment that uses solar radiation as a substitute for traditional energy for water heating, active space heating and cooling, passive heating, daylighting, generating electricity, distillation, desalinization, or the production of industrial or commercial process heat, as well as related devices necessary for collecting, storing, exchanging, conditioning, or converting solar energy to other useful forms of energy;
 - (B) Energy Star certified geothermal heat pump systems;
 - (C) Energy efficient projects as follows:
 - (i) Lighting retrofit projects. "Lighting retrofit project" means a lighting retrofit system that employs dual switching (ability to switch roughly half the lights off and still have fairly uniform light distribution), delamping, daylighting, relamping, or other controls or processes which reduce annual energy and power consumption by 30 percent compared to the American Society of Heating, Refrigerating, and Air Conditioning Engineers 2004 standard (ASHRAE 90.1.2004); and

Georgia Tax Credits: Details of the Business and Personal Credits Allowed Against Georgia's Income Tax (Appendix B)

- (ii) Energy efficient buildings. "Energy efficient building" means for other than single-family residential property new or retrofitted buildings that are designed, constructed, and certified to exceed the standards set forth in the American Society of Heating, Refrigerating, and Air Conditioning Engineers 2004 standard (ASHRAE 90.1.2004) by 30 percent;
 - (D) Wind equipment required to capture and convert wind energy into electricity or mechanical power as well as related devices that may be required for converting, conditioning, and storing the electricity produced by wind equipment; and
 - (E) Biomass equipment to convert wood residuals into electricity through gasification and pyrolysis.

- (A) In the case of clean energy property owned by the taxpayer, cost is the aggregate funds actually invested and expended by a taxpayer to put into service the clean energy property; and
 - (B) In the case of clean energy property the taxpayer leases from another, cost is eight times the net annual rental rate, which is the annual rental rate paid by the taxpayer less any annual rental rate received by the taxpayer from subrentals.
- (5) "Installation" means the year in which the clean energy property is put into service and becomes eligible for a tax credit allowed by this Code section.
- (6) "Renewable biomass qualified facility" means a renewable biomass qualified facility as defined by the Federal Energy Regulatory Commission which facility meets the open loop biomass standards promulgated pursuant to Section 45 of the Internal Revenue Code.
- (7) "Wood residuals" means wood residuals that include land-clearing residue, urban wood residue, and pellets and do not include wood from any United States national forest.
- (b) A tax credit under this Code section is subject to the following limits:
- (1) A tax credit is allowed against the tax imposed under this article to a taxpayer for the construction, purchase, or lease of clean energy property that is placed into service in this state between July 1, 2008, and December 31, 2012; provided, however, this credit shall be further subject to the following conditions and limitations:

Georgia Tax Credits: Details of the Business and Personal Credits Allowed Against Georgia's Income Tax (Appendix B)

- (A) A credit allowed by this Code section shall be taken for the taxable year in which the clean energy property is installed and may be taken against income tax or, if the taxpayer is an insurance company, against gross premium tax;
- (B) A taxpayer that claims a credit allowed under this subsection shall not be eligible to claim any other credit under this subsection with respect to the same clean energy property;
- (C) A taxpayer may not take the credit allowed in this subsection for clean energy property the taxpayer leases from another unless the taxpayer obtains the lessor's written certification that the lessor will not claim a credit under this subsection with respect to the same clean energy property; and
- (D) In no event shall the amount of the tax credits allowed by this Code section for a taxable year exceed the taxpayer's liability for such taxes. Any unused credit amount shall be allowed to be carried forward for five years from the close of the taxable year in which the installment of the clean energy property occurred. No such credit shall be allowed the taxpayer against prior years' tax liability.

To claim a credit allowed by this paragraph, the taxpayer shall provide any information required by the authority or department. Every taxpayer claiming a credit under this Code section shall maintain and make available for inspection by the authority or department any records that either entity considers necessary to determine and verify the amount of the credit to which the taxpayer is entitled. The burden of proving eligibility for a credit and the amount of the credit rests upon the taxpayer, and no credit may be allowed to a taxpayer that fails to maintain adequate records or to make them available for inspection;

- (2) A taxpayer who transports or diverts wood residuals to a renewable biomass qualified facility shall be allowed a credit against the tax imposed by this article in an amount not to exceed the actual amount certified by the Georgia Forestry Commission to the taxpayer. The value of such credit shall be determined on a per tonnage basis. Such certification shall be based upon vouchers provided to the taxpayer by the renewable biomass qualified facility to whom the wood residuals are provided for the purpose of providing bioelectric power to a third party. The Georgia Forestry Commission shall calculate and attribute a dollar value to such wood residuals;
- (3) In no event shall the total amount of tax credits allowed by this subsection exceed:
 - (A) For calendar year 2008, \$2.5 million;

- (4) (A) A taxpayer seeking to claim any tax credit provided for under this Code section must submit an application to the commissioner for tentative approval of such tax credit. The commissioner shall promulgate the rules and forms on which the application is to be submitted. The commissioner shall review such application and shall tentatively approve such application upon determining that it meets the requirements of this Code section within 60 days after receiving such application.
- (B) The commissioner shall allow the tax credits on a first come, first served basis. In no event shall the aggregate amount of tax credits approved by the commissioner for all taxpayers under this Code section in a calendar year exceed the limitations specified in paragraph (3) of this subsection. In the event a taxpayer filed a timely application for such credit but is not allowed all or part of the credit amount to which such taxpayer would be authorized to receive because the limitations specified in paragraph (3) of this subsection have reached, such taxpayer may reapply in the following taxable year for a tax credit for those same eligible costs, and in such event, that taxpayer shall have priority over other taxpayers for credit allocation in the year of such reapplication;
- (5) The credit allowed by this subsection shall not exceed the following amounts:
- (A) For all types of clean energy property placed into service for any purpose other than single family residential, the credit allowed by this subsection may not exceed the lesser of 35 percent of the cost of the clean energy property described in subparagraphs (a)(3)(A) through (a)(3)(C) of this Code section or the following credit amounts for any clean energy property:

About The Fiscal Research Center

The Fiscal Research Center provides nonpartisan research, technical assistance, and education in the evaluation and design of state and local fiscal and economic policy, including both tax and expenditure issues. The Center's mission is to promote development of sound policy and public understanding of issues of concern to state and local governments.

The Fiscal Research Center (FRC) was established in 1995 in order to provide a stronger research foundation for setting fiscal policy for state and local governments and for better-informed decision making. The FRC, one of several prominent policy research centers and academic departments housed in the School of Policy Studies, has a full-time staff and affiliated faculty from throughout Georgia State University and elsewhere who lead the research efforts in many organized projects.

The FRC maintains a position of neutrality on public policy issues in order to safeguard the academic freedom of authors. Thus, interpretations or conclusions in FRC publications should be understood to be solely those of the author(s).
